LISTING CONSULTATION

This is where we make a plan together. As your agent, I'm going to be asking you questions about your goals for selling your home and any questions or concerns you may have related to your sale. Please take a moment to think about those things before our consultation so that we can ensure we make the best use of our time together and address the most important issues.

I'll also be preparing materials for your review, including an overview of our marketing campaign, an explanation of social strategy and a comparative market analysis to show you what is selling (and not selling) in your market area.

A few things to think about before we meet...

What is your moving timeline?

What do you hope to net from your home sale?

What concerns do you have about listing or buying?

Write these things down before we meet so we can talk through all the details!

-Arika

SETTING THE RIGHT PRICE

You know what happens when you overprice your house? Nothing. Nothing happens. No showings get scheduled, no offers come in.

Pricing is a science and the single most important strategy you'll employ when going to market. During your listing consultation we'll make sure your goals align with market conditions and make a plan together.

PROFESSIONAL PHOTOS

Ever heard that old saying: "You never get a second chance to make a first impression"?

Well, it's true! In real estate, that first impression can be the difference between selling your house and having it sit on the market for months.

When it comes to real estate photography & video, the first impression is not just about the home—it's about the potential buyers' initial perception of how they would feel living in that home.

Shocking Truths...

homes listed with professional photography sell 32% faster.

The average ROI on professional real estate photography is 826%.

68% of consumers say that great photos made them want to visit the home.

GO TO MARKET TIMELINE

Homes perform best when they go to market on Thursday. In order for your home to go to market on Thursday, all cleaning and photos need to be taken 2-3 weeks prior.

On photo day, we'll do staging and cleaning prior to photo and video. This is an all day event and it is best if you plan to be gone for the majority of the day.

The photos and videos will then be edited and used to build the following marketing materials:

- Your home only website
- Neighborhood direct mail pieces
- Social media posts & ads
- Open house materials

GOING TO MARKET

Three Step Marketing Process

When taking a home to market, it's imperative to have an immersive marketing strategy. This means your ideal buyer is seeing your home multiple times in multiple mediums. This 3-Step approach allows for buyers across all generations to see the details of your home.

THE DETAILS...

01

MAILERS: I know, most agents will tell you these are a waste of time and money, but my data tells me otherwise. This is where we let all the neighbors know about your home.

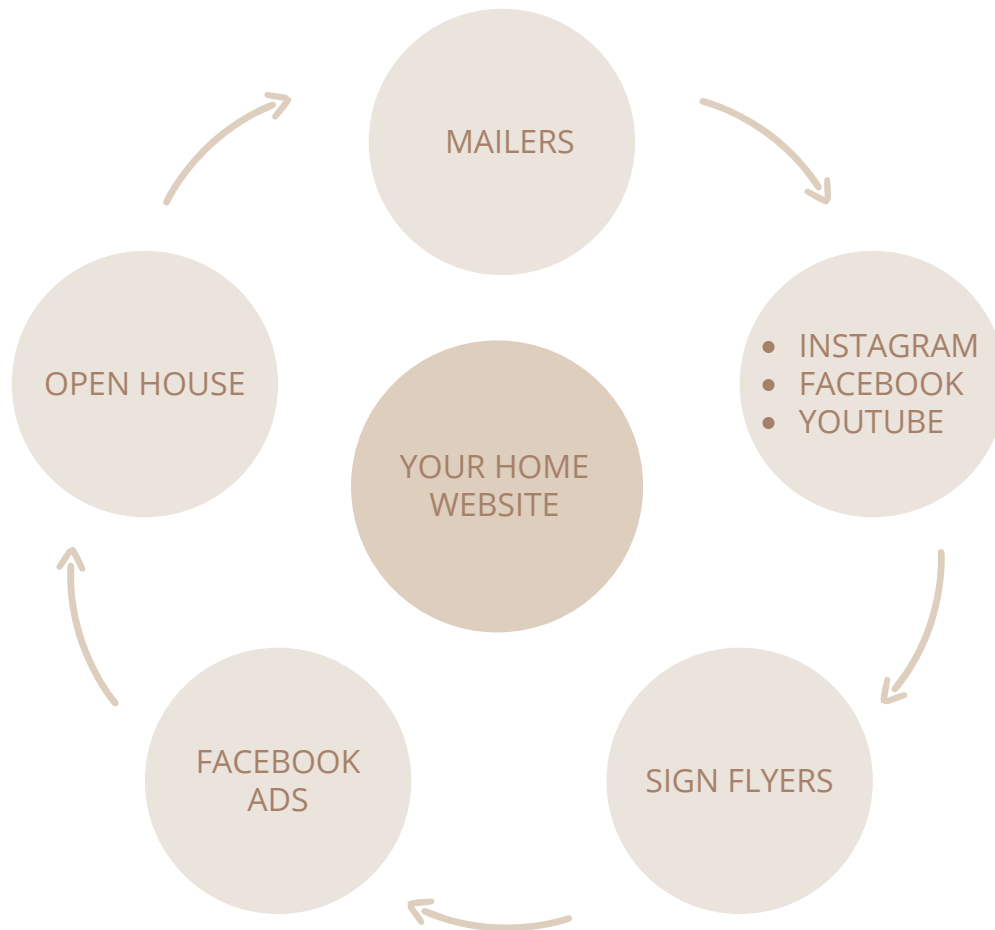

02

SOCIAL: They see a postcard in the mail and then a reel pops up talking about the same house. Then a Facebook ad...finally, buyers are clicking on the link to your personal website, where they can take a full digital tour.

03

OPEN HOUSE: Which invites them to the Open House so they can see what you have to offer in real life. Since they've already seen the photos and videos, this buyer is highly invested in your home.

The 7-11-4 Rule

Studies show that in order for consumers to make a buying decision they need to spend 7 hours of time, with 11 touch points from at least 4 different platforms to feel comfortable pulling the trigger. This is why immersive marketing is an absolute MUST when going to market.

Perhaps 7 hours feels aggressive, but buying a home is often one of the biggest decisions consumers make, so we want to make it easy for them to spend 7 hours on YOUR HOME. This is how we do it.

ONLINE DEBUT LISTED TO SELL

It's no secret that the housing industry has changed over the years. Gone are the days of newspaper listings and word-of-mouth lead generation—now, most people turn to the Internet when looking for new homes. With 95 percent of home buyers using it, the Internet is an essential tool in the home search process. In fact, 54 percent of buyers say that using the Internet is their very first step in finding a new home.

The average home buyer spends 10 weeks searching for a home and previews 12 properties before deciding on their purchase.

*I give your home as much visibility
as possible using a variety of tools to
ensure your home is seen by
thousands of potential buyers*

Of course, I don't forget the basics: I publish your listing on the MLS (multiple listing service), syndicate with major real estate platforms like Zillow, Trulia, and Realtor.com, and claim those listings to follow statistics.

OPEN HOUSE

Open houses are essential when selling a property.

Think about it: when you hold an open house, you're exposing your listing to the world, especially if you do it regularly. That means that each of those events will give your property renewed attention on all of the online portals and make your listing pop up in front of more potential buyers. And because this is physical real estate we're talking about, an open house also gives them a chance to experience your home in person!

Not only does this mean more exposure for your property and more traffic for you—the extra foot traffic means that someone who's just looking for fun or out of curiosity might end up being your next buyer.

OFFER PRESENTATION

Offer presentations happen any time we receive an offer or offers. We'll get together as a team to review the offers with you side-by-side so we can compare them and decide on which one to accept or counteroffer.

In a multiple offer situation, we'll review them all at once. This strategy is ideal because it allows us to compare offers from different buyers at once, rather than receiving them one by one over time.

CONTINGENCY PERIOD

In real estate, a "contingency" refers to a condition of the Agreement of Sale that needs to occur in order for the transaction to keep moving forward. As the buyer, there are many contingencies that they can choose to include in your contract.

Passing this period, if everything looks good at this point, there are just two more stages before closing: a title search and transfer of ownership.

By working closely with me and other industry experts, you'll be better able to understand what contingencies are all about, when they're most likely to be necessary, and what you can do to make sure you're in the best position possible for dealing with contingencies when they arise.

COMMON

Inspection 01 *Contingency*

Every contract has a 10-day inspection contingency. This is where the buyer is able to do their due-diligence on the property with a professional inspection.

Financing 02 *Contingency*

Most contracts are also contingent on the buyer's financing. We don't accept offers unless we have the buyer's pre-approval from a lender.

Appraisal 03 *Contingency*

Inside the buyer's financing there is often an appraisal contingency. This means the buyer's financing is contingent upon the home appraising for their purchase price.

Home Sale 04 *Contingency*

Some contracts are also contingent upon the buyer selling and closing on their current home. There will be additional paperwork and dates we abide by with this type of contingency.

CONTINGENCIES

CLOSING DAY

This is it! The big day!!! I've done this dozens of times and I promise you, we'll get through it just fine. You'll be signing a lot of paperwork today, most of it pretty dull, all of it important. The good news is, it's all paperwork we'll have already reviewed. After you sign everything...the deal is closed once the following is done:

1. The deed isn't a legal document until it has been recorded by the county recorder's office. Once each party has signed, the title company will send it to record. This can take a few hours.
2. Depending on when the deed records, funding will follow. Some loans fund the same day, some take up to 48 hrs after recording. The home is officially closed once it is recorded. Don't stress about the funding being immediate. The lender and title company have the funds, it's just a process to transfer them into your bank account.

Once the deed records, we'll release keys to the new homeowner.

A patio area with a striped chair is visible in the foreground. The sky is a mix of blue and pink, suggesting sunset or sunrise. The overall scene is a high-quality, professional photograph of a modern stone home.

What you **CAN EXPECT**

I know this is about more than selling high and buying low and I can promise you that while there will be some bumps in the process, I'll be doing my best to help you avoid any delays or roadblocks. You can expect weekly phone calls with my trademark *tell it like it is* honesty & creative problem solving to get you where you want to go.
